

## Arithmetic

- Work out  $16 + 27$  in your head and by yourself. NO DISCUSSION yet please.

When you have all attempted this compare the different methods you used.

- Work out  $16 \times 27$  in your head and by yourself.

Compare the different methods you used.

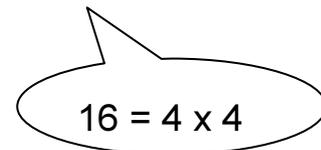

What other methods might you have used?

There are some hints here if you want them.

Some different ways to work out  $16 \times 27$ :

$$16 = 10 + 6$$

$$16 = 10 + 5 + 1$$

$$16 = 4 \times 4$$
