

Experiencing film music

You are going to watch two different extracts from films which use music to different effects. Watch the extracts first, then try to answer the questions below.

- 1 What do you remember about the extract of film you just saw?

<i>Extract 1</i>	<i>Extract 2</i>
------------------	------------------

- 2 Do you remember hearing any music? If so, what was the mood of the music you have just heard (e.g. happy, sad, busy, calm etc.)? Try to find at least three different words to describe it. If you didn't hear any music, write down what it was in the film that distracted you from hearing it.

<i>Extract 1</i>	<i>Extract 2</i>

3 What details of the story or the action do you think the music emphasised?
