Companies and financial accounting - Trailer

NARRATOR:

In this free course, you'll find everything you need to know about companies and financial accounting. You'll learn the legal characteristics of private and public limited companies and the purposes and consequences of these characteristics.

We'll explore the different ways companies have financed, such as share capital, internally-generated capital, and loan capital, and how exactly each is raised. You'll discover which stakeholders might have an interest in a limited company and what interests they might have.

The financial statements for companies and sole traders have quite different layouts. We'll take you through the main differences and explore the reasons for these differences. There are also different perspectives on the role of companies in society. We'll learn the three main perspectives. So get started today. And discover the fundamentals of companies and financial accounting.
