MARK MONTANO: Hey, DIYers. Today, on "Make Your Mark!" we are making handmade paper from recycled paper that you normally throw away. It's an awesome process that my friend Robert taught me how to make. Now, Robert is a great DIYer. And I am going to leave a link to his YouTube channel in the description of this video. So get on over there and see what he makes.

Are you ready? Here's what you'll need.
