Adapting to climate change: Khulna district, Bangladesh

Climate change and salinisation in Bangladesh - Video 2

NIRAPAD BYNE: The whole world is polluted and I believe the whole universe has been polluted so it's no wonder it's happening here. The West have caused this damage and we are only a small country so I believe they should compensate us. In my humble opinion they should do this and they should stop polluting immediately.

NARRATOR: The people living here don't benefit from the energy produced by burning fossil fuels.

SHAYMOL DHALI: We don't have electricity here. We have a solar panel...
