Presentation bingo

Problems starting presentation	Too many slides for the time available	Yellow writing on bright blue background	Entire slide filled with equations
Umm….er….so…..	Speaker runs out of time	Jargon….jargon…jargon	Speaker forgets to use to microphone
Speaker never looks at the audience	Computer malfunctions	Someone's phone rings	Text too small to read
Really obvious spelling mistake	Speaker uses five minutes to give the outline	You don't understand any of it	Speaker turns round to read from the slides
