

Researching Professional Development Plan

This is an additional resource that you can use to accompany your EdD studies and the support you receive from your supervisors. Behind the nine triangles in the Researching Professional Development Framework you will have read about the thoughts and experiences of past and present EdD students. Below is a development plan you can now complete for your forthcoming EdD year. Enter in each box below any actions that you feel would help you develop as a researching professional (*the boxes will expand as you type in them*). Try to make any actions you identify SMART - **S**pecific, **M**easurable, **A**chievable, **R**ealistic and **T**imely. We suggest you discuss your plan at a supervision session early next year. You can then continue to review and update your plan, in whatever way is appropriate for you.
