Unit 7 – Card 1

Unit 7 – Card 1

Traditional ecological knowledge (TEK) is accumulated across generations by collective human experience with the natural world. TEK can be part of ecologically sustainable transformations required for the coming decades.

Unit 7 – Card 2

Unit 7 – Card 2

Permaculture is a design system that uses nature as a guide, thinks holistically, creates abundance and harmony, is based on cooperation and connections, and is solution-based – all approaches that sustainable pedagogies are based around.

Unit 7 – Card 3

Unit 7 – Card 3

TEK and the six Rs (reciprocity, respect, reverence, responsibility, restraints, relationship), storytelling and rituals, and the three ethics and twelve principles of permaculture can all play an important role in teaching.
