Make this the year you achieve a recognised qualification

Online Learning for Everyday Skills in Maths and English

Do you want to improve your reading, writing or maths skills?

The Open University – in partnership with The Bedford College Group, Middlesbrough College and West Herts College – offers a range of exciting new free OpenLearn online courses in maths and English.

These free courses allow you to study at a pace that suits you. The topics are based on everyday skills and you will learn how to apply them to your home and work life. They are ideal for anyone looking to upskill for promotion, support children with their homework or studying for personal advancement, including as part of an apprenticeship.

These maths and English courses are available at two levels and you can choose the level that suits your ability and aspirations. Start dates are flexible throughout the year and each online course can be completed in as little as 48 study hours.

What are the OpenLearn courses like?

The OpenLearn courses are divided into a series of easy-to-use sections with interactive quizzes and activities to motivate and inspire you.

What are my options?

- Complete the free OpenLearn online course(s) and receive an Open University badge, which can be added to your employment profile and your CV. Learn online, in your own time, at your own pace, for free.

Or

- Enrol with Bedford College for an online Functional Skills qualification in maths or English at Level 1 or Level 2 and sit the exam at college.
