

- What is it we do not know about the problem?
- What information do we need to gather?
- What do people say, do, think, feel about this problem?

Tech: nQuire for students, ChoiCo, SorBET

- How can we define the problem based on what people said?
- What are some prototypes we can create to help other people understand the problem?

Tech: ChoiCo, SorBET, MaLT2, GearsBot

- What is the prototype we will create?
- How can we iterate and improve it?

Tech: ChoiCo, SorBET, MaLT2, GearsBot  What do other people think about our prototype?

**Sharing** 

&

**Feedback** 

- Can we make it work better?
- What changes shall we make to the prototype following feedback?

Respond

**Deliver** 

Outcome
