🌍 Multinational Company Qualifications Organised by Sector

Many of the large multi national companies now also offer their own professional courses and associated training and qualifications which are widely recognised in their industries. These courses also enhance the opportunities for graduates and non graduates to progress in their chosen professions and careers. These qualifications have a practical focus and can be considered alternatives to academic qualifications. The table that follows shows some of the main industry qualifications offered organised by sector:

1 Information Technology & Cloud Computing +

Company	Qualification	Nature of Qualification
Microsoft	Microsoft Certified: Azure Administrator Associate	Validates ability to manage Azure cloud services, storage, networking, and identity.
Amazon Web Services (AWS)	AWS Certified Solutions Architect – Associate	Demonstrates skill in designing secure, scalable cloud systems using AWS services.
Cisco	Cisco Certified Network Associate (CCNA)	Foundational networking skills: routing, switching, IP services, troubleshooting.

2 Cybersecurity +

Company	Qualification	Nature of Qualification
CompTIA	Security+	Widely recognised entry-level cybersecurity certification covering risk, threats, networks, and response.

Company	Qualification	Nature of Qualification
Cisco	Cisco Certified CyberOps Associate	Skills for security operation centres (SOC), monitoring, and incident handling.
EC-Council	Certified Ethical Hacker (CEH)	Teaches ethical hacking, penetration testing, and network vulnerability assessment.

3 Creative & Design Industries

Company	Qualification	Nature of Qualification
Adobe	Adobe Certified Professional (ACP) – Photoshop / Illustrator	Recognises practical skills in digital imaging, illustration, and design workflows.
Autodesk	Autodesk Certified Professional – AutoCAD or Revit	Certifies ability to use industry-standard CAD/BIM software for architecture and engineering design.
Unity Technologies	Unity Certified User (Game Development)	Validates beginner-to-intermediate skills in game development using Unity's engine.

4 Business, Productivity & Project Management

Company	Qualification	Nature of Qualification
Google	Google Project Management Certificate	Provides foundations in project planning, Agile/Scrum, scheduling, and risk management.
IBM	IBM Professional Certificate in Data Analysis	Demonstrates practical business data analytics skills used in reporting and decision-making.
LinkedIn Learning / PMI partnership	CAPM® (Certified Associate in Project Management)*	Entry-level global project management certification (PMI endorsed).

Offered globally under Project Management Institute (PMI), often taught on platforms like LinkedIn Learning or Coursera.

5 Engineering & Manufacturing

Company	Qualification	Nature of Qualification
Siemens	Siemens Mechatronics Systems Certification Program (SMSCP)	International certification combining mechanical, electrical, and automation engineering skills.
SolidWorks (Dassault Systèmes)	SolidWorks Associate / Professional (CSWA / CSWP)	Validates 3D CAD modelling skills used in engineering and product design.
National Instruments	Certified LabVIEW Associate Developer (CLAD)	Demonstrates ability to use LabVIEW for control, measurement, and automation tasks.

6 Hospitality & Tourism

Company	Qualification	Nature of Qualification
City & Guilds (UK)	Hospitality & Catering Professional Certifications	Recognised globally for skills in food service, hotel operations, and hospitality management.
AHLEI (American Hotel & Lodging Educational Institute)	Certified Guest Service Professional	Standard for customer-service skills in the hotel and tourism industry.
Marriott International	Marriott International Leadership Development Pathway (internal certification)	Global hospitality leadership development recognised within the industry.

7 Education & Training

Company	Qualification	Nature of Qualification
Microsoft	Microsoft Certified Educator (MCE)	Shows ability to integrate digital tools into teaching and learning.
Cambridge (UK)	Cambridge Teaching Knowledge Test (TKT)	International teaching qualification covering pedagogy and classroom skills.
Google	Google Certified Educator (Level 1 & 2)	Certifies skill in using Google tools for modern, digital teaching.

8 Data, AI & Analytics +

Company	Qualification	Nature of Qualification
Google	Google Data Analytics Professional Certificate	Beginner-to-intermediate data cleaning, analysis, spreadsheets, SQL, and data storytelling.
Microsoft	Microsoft Certified: Azure AI Engineer Associate	Certification in building AI and Machine Learning solutions using Azure AI services.
IBM	IBM AI Engineering Professional Certificate	Focuses on machine learning, deep learning, and deployment of AI models.

✓ Summary

These qualifications are widely recognised across ASEAN, Europe, Australia, and North America, making them particularly valuable for learners from Myanmar seeking international opportunities.
