

Name: _____

When are these birds in Scotland?

Can you draw a line between the birds and the time of year they can be found in Scotland? (Some answers have more than one!)

The maze puzzle is a square grid with various paths. At the top, three bird names are listed: Wheatear, Starling, and Waxwing. On the left side, there are three seasonal descriptions: 'Visits Scotland in Winter' (with a snowflake icon), 'Chaffinch', and 'Manx Shearwater'. On the right side, there are two more seasonal descriptions: 'Passes by Scotland' (with a paper airplane icon) and 'Swallow'. At the bottom, there are two more seasonal descriptions: 'Lives in Scotland' (with a house icon) and 'Visits Scotland in Summer' (with a sun icon). Colored lines are drawn through the maze to connect the birds to their seasons: Wheatear is connected to 'Lives in Scotland' (yellow line), Starling is connected to 'Visits Scotland in Winter' (blue line), Waxwing is connected to 'Passes by Scotland' (red line), Chaffinch is connected to 'Visits Scotland in Summer' (green line), and Manx Shearwater is connected to 'Visits Scotland in Summer' (red line).
